	Date of Funding Denial Notice:	November 22, 2004
	Date of Appeal:	January 13, 2005

Funding Request Numbers Appealed

SLD's Reason for Funding Denial

The SLD granted funding but on all FRNs but modified the funding request:

“The shared discount was corrected.”

Statement in Support of Appeal

Fort Wayne Community School District, Fort Wayne, Indiana (“Fort Wayne”) seeks review of a decision by the Schools and Libraries Division (“SLD”) of the Universal Service Administrative Company (“USAC”). The decision by the SLD granted Fort Wayne’s funding for the July 1, 2003-June 30, 2004 Funding Year but erred in correcting the shared discount percentage to a lower percentage than that to which Fort Wayne is actually entitled.

1. The shared discount was accurate as stated on the Applicant’s FCC Form 471 Application

Based on the attached 471 Application (Exhibit A) the SLD committed reversal error when it modified the “shared discount” percents. The District calculated its discount in accordance with the FCC’s Form 471 Instructions. More specifically, Fort Wayne used an approved SLD alternative calculation mechanism to determine the applicable discount percentage. This alternative method is described in the SLD’s Alternative Discount Mechanisms Fact Sheet at <http://www.sl.universalservice.org/ContentInc/reference/alt.asp>.

The specific method employed was Number 7, Projections Based on Surveys.

Projections Based on Surveys states:

If a school has sent a questionnaire to all of its families, and if it receives a return rate of at least 50 percent of those questionnaires, it may use that data to project the percentage of eligibility for E-rate purposes for all students in the school. For example, a school with 100 students sent a questionnaire to the 100 homes of those students, and 75 of those families returned the questionnaire. The school finds that the incomes of 25 of those 75 families are at or below the IEG for NSLP. Consequently, 33 percent of the students from those families are eligible for E-rate purposes. The school may then project from that sample to conclude that 33 percent of the total enrollment, or 33 of the 100 students in the school, are eligible for E-rate purposes. See

During the PIA process, the SLD requested and received copies of the free and reduced data calculations obtained from the survey. The free and reduced data provided the basis upon which the District's discount percentage of 90% was calculated. (Exhibit B)

Applicant's documentation substantiates the District's discount percentage in accordance with SLD guidelines (Exhibit B).

2. The shared discount percentages should not have been modified by the SLD.

The alternative mechanism used by the District was one of the SLD sanctioned alternative calculation mechanisms. The District's calculations were within SLD guidelines and were fully supported by necessary documentation. Using the sanctioned survey method the District accurately calculated its discount percentage to be at 90%. The SLD committed reversible error when it modified the discount percentage to be contrary to the calculations and supporting documentation.

Conclusion:

The discount percentage calculation method used by the District followed SLD sanctioned methodology and was fully supported by all necessary documentation. The SLD committed reversible error when it modified the shared discount percentage to be less than supported by the data.

Applicant hereby requests:

1. That this matter be acted upon within 90 days or less of the filing date of this appeal;
2. That the FCC order the SLD to correct the percentage discount for all FRN's set forth herein.
3. That funds be set aside to totally fund the District's request.

Respectfully submitted,

INFORMATION ON DISCLOSURE OF SOCIAL SECURITY NUMBERS: Section 9 of the National School Lunch Act requires that, unless your child's food stamp or TANF case number is provided, you must include the social security number of the adult household member signing the application or indicate that household member does not have a social security number. Provision of a social security number is not mandatory, but if a social security number is not provided or an indication is not made that the adult household member signing the application does not have one, the application cannot be approved. The social security number may be used to identify the household member in carrying out efforts to verify the correctness of information stated on the application. These verification efforts may be carried out through program reviews, audits, investigations, and may include contacting employers to determine income, contacting a food stamp or welfare office to determine current certification for receipt of food stamps or TANF benefits, contacting the State employment security office to determine the amount of benefits received and checking the documentation produced by the household members to prove the amount of income received. These efforts may result in a loss of reduction of benefits, administrative claims, or legal action if incorrect information is reported. The social security number may also be disclosed to programs as authorized under the National School Lunch Act and the Child Nutrition Act, the Comptroller General of the United States, and law enforcement officials for the purpose of investigating violations of certain Federal, State and local education, health and nutrition programs, and Medicaid and Hoosier Healthwise for the purpose of identifying and seeking to enroll eligible children in one of these health insurance programs.
